

YOUR FINEST BEAUTY-GUARD COOLER

FOREWORD

“ OUR MISSION : TO PRESERVE THE BEAUTY of today's women and men. ”

Cosmetics are becoming more and more natural, leaving behind preservatives and becoming more and more sensitive. Faced with this observation, it is necessary to support this major evolution with an eco-designed product, to optimize their conservation in a sustainable way : here is the birth of Celcius.

THE BENEFITS OF COLD FOR YOU

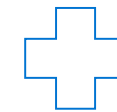

**APPROVED
BY PROFESSOR PICCERELLE**

Professor of Pharmaceutical Technology
and Cosmetology at the University of Aix-Marseille.

IT PRESERVES AND CONSERVES THE LIVING

It slows down the proliferation of micro-organisms that deteriorate the quality of the active ingredients, such as oxidation.

IT HEALS INFLAMMATION AND PAIN

The analgesic action of cold has been known since Antiquity. Cryotherapy is also recommended by doctors as a therapy for athletes.

IT IMPROVES YOUR BLOOD CIRCULATION

The cold on the skin induces a phenomenon of vasodilatation, making the blood circulation better. This phenomenon also helps to reduce the appearance of unsightly varicose veins.

IT MAKES THE SKIN FIRMER AND MORE TONIC

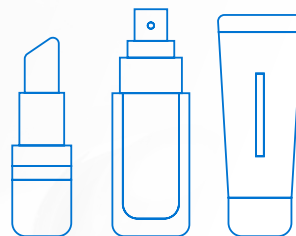

It naturally increases the skin's firmness and tonicity. This allows to fight against skin slackening because it tightens dilated pores and reduces sebum production.

IT GIVES YOU A HEALTHY GLOW

By refreshing the skin, it decongests and tones, allowing you to look at your best.

THE BENEFITS OF COLD FOR YOUR COSMETICS

FOR ALL TYPES

Eye contour, lipsticks, masks,
varnishes, perfumes, lotions, etc.

PERFECT TEXTURE

They will never be pasty again.

A UNIQUE APPLICATION

More precise in use, you will rediscover them on your skin.

PRESERVED PERFUMES

Since they don't tolerate air, heat or light, the subtlety of the notes will be respected over time.

PROTECTED ACTIVE INGREDIENTS

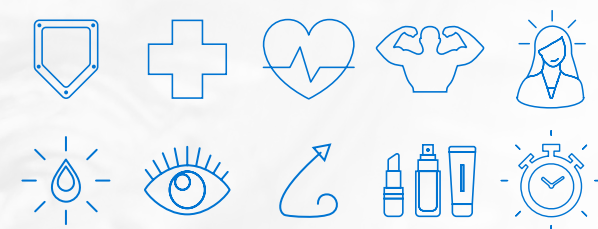

The more organic and natural products are, the more sensitive they are to oxidation.

IMMEDIATE EFFECT

Immediately in a fresh environment, their loss is stopped.
